contact a family
for families with disabled children

Resource pack

Helping you have up to date information for families with disabled children

The Contact a Family Resource Pack is ideal for practitioners and professionals that work with families with disabled children.

Each Resource Pack contains one of each of our guides for parents, currently there are twenty seven. The guides cover a wide range of topics including finance, education, parenting, employment, childcare, daily living and family relationships. All the information material comes in an expanding plastic folder, which is particularly useful for family support workers and outreach staff when visiting families at home.

Keeping track of changes, particularly around benefits and tax credits can be challenging. Contact a Family will send out new and updated factsheets to recipients over the course of the year, ensuring the information inside the pack is always up to date.

Each Resource Pack also contains a selection of leaflets and helpline cards to give to families, so they know how to contact us. Our freephone helpline can provide telephone advice on any matter relating to disability, as well as send families a free copy of any of our factsheets.

We will also provide 'Contact a Family' posters to display, so families of disabled children know they can approach you for advice. Additional information factsheets and leaflets can be purchased using an order form, which will be sent to you with your resource pack.

If you wish to purchase more than 3 resource packs then it will be more economical to sign up to our subscription service. Subscribers receive:

- 4 Contact a Family Resource Packs. Additional Resource Packs can be then purchased at a reduced price.
- 1 copy of Connected – our quarterly magazine keeping you updated about what is happening in the disability and carers sector.
- 3 copies of our support pack for health professionals - Working with families affected by a disability or health condition from pregnancy to pre-school

Details of how to order resource packs or become a subscriber are given overleaf. If you have any queries about this service, please telephone Una Summerson on 020 7608 8742.
